Summary

Full-stack developer with hands-on experience building scalable web applications and consumer marketplace features using React.js, Next.js, TypeScript, and REST APIs. Experienced in shipping production-ready code across frontend and backend layers with a focus on clean UI architecture, performance optimisation, and end-to-end e-commerce and consumer-facing product development. Passionate about building user-centric digital products in fast-paced, iterative environments.

Experience

Full Stack Developer Intern - Metasys

Jun 2026 – Present

React.js, Next.js, REST APIs, SQL

- Developed responsive frontend interfaces for a premium lifestyle e-commerce platform, including product catalog, cart, and checkout flows, collaborating with a team of **15+ members**.
- Optimised image assets via compression and cloud-hosted delivery, reducing page load latency by **40%** and improving overall site performance.
- Assisted in backend API integration for product listing, cart management, and order data, ensuring seamless communication between frontend and server.
- Streamlined deployment workflow through cache management and optimized build processes, enabling faster and more reliable releases.

Software Development Intern - Femira (by Meraji), Indore

Jan 2026 – Mar 2026

React.js, Next.js, WordPress, HTML, CSS, SQL

- Built and optimized **10+ frontend and backend features** for the shopping cart module (cart persistence, real-time price updates, quantity management, checkout flow), reducing UI latency by **25%** through lazy loading and optimized re-render logic.
- Worked in Agile SDLC cycles including requirement analysis, sprint planning, testing, and deployment workflows.
- Implemented automation scripts (data validation and deployment scripts using Python/Bash), reducing manual effort by **30%** and improving overall system efficiency.
- Used Git and GitHub for version control, managing **50+ commits**, and ensuring smooth collaboration in production environments.

Projects

Project Synapse – AI-Powered Last-Mile Delivery Platform [\[GitHub\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

React.js, Next.js, Tailwind CSS, REST APIs, SQLModel, Leaflet.js

- Built a full-stack delivery platform supporting **500+ simulated users** with real-time order tracking and role-based dashboards.
- Integrated REST APIs, map-based tracking, and an AI chatbot, reducing manual issue handling by **30%** and improving response efficiency.
- Implemented **JWT-based authentication** and role-based access control across customer, rider, and admin dashboards, ensuring secure and isolated user workflows.
- Reusable React components designed for scalability, reducing UI development time by **20%** and maintaining clean architecture.

She Care – Women Empowerment Platform [\[GitHub\]](#) [\[Live\]](#)

Mar 2026 – Mar 2026

React.js, Tailwind CSS, AI/NLP concepts, REST APIs

- Designed and developed a responsive React-based web platform dedicated to International Women’s Day, integrating health, career, safety, and AI-assistance modules for women across India.
- Integrated an AI-powered chatbot and text-to-speech feature, guiding users through health, safety, and career resources with accessible, hands-free content narration.
- Built a cycle-prediction and health alarm system enabling users to track wellness reminders, improving daily health awareness by **25%**.
- Developed a safety module with a one-click panic button and emergency contact management, and a career portal with category-based filtering (Creative Arts, Logistics, Digital & Tech, Culinary), improving job-discovery navigation by **20%**.

Technical Skills

Languages: Python, Java, JavaScript, HTML5, CSS3, TypeScript

Frameworks & Libraries: React.js, Next.js, Node.js, FastAPI, Express.js, TailwindCSS

Databases & Tools: SQL, MySQL, Git, GitHub

Gen AI: GenAI, LLM, NLP, LangChain

Cloud: AWS, Google Cloud, Cloud Computing

Achievements

- AWS Certified Cloud Practitioner [\[AWS\]](#) Jan 2026 – Jan 2029
- Oracle OCI Generative AI Professional [\[Oracle\]](#) Nov 2025 – Nov 2028

Extracurricular

- Secured **Top 20 nationally** at GrabHack (Top 5%); participated in national-level hackathons including SIH, EY National Challenge, Amazon, Myntra, Adobe, and TVS, gaining hands-on experience in rapid prototyping and collaborative problem-solving under time constraints.
- **Vice President, Edu4U Club** – led and managed a team of **50+ members** at VIT Bhopal, organising large-scale academic and technical events, driving student engagement, and coordinating structured learning initiatives.
- Served as **Student Coordinator** for the TCS Campus Recruitment Process, coordinating between corporate representatives, placement authorities, and **200+ candidates**, ensuring smooth end-to-end execution of large-scale placement activities.
- Completed a **Generative AI Virtual Internship** (Google Cloud) with SmartBridge & SmartInternz (Nov 2025 – Jan 2026), gaining practical exposure to LLM concepts, prompt engineering, and cloud-based AI workflows.

Education

Vellore Institute of Technology

Sept 2022 – May 2026

B.Tech in Computer Science and Engineering (Educational Technology)

CGPA: 8.04
