Summary

Full-stack developer with hands-on experience building scalable web applications and consumer marketplace features using React.js, Next.js, TypeScript, and REST APIs. Experienced in shipping production-ready code across frontend and backend layers with a focus on clean UI architecture, performance optimisation, and short-form creator content and brand-creator marketplace development. Passionate about building user-centric digital products in fast-paced, iterative environments.

Experience

Software Development Intern, Femira (by Meraji), Indore

Jan 2026 – Mar 2026

React.js, Next.js, WordPress, HTML, CSS, SQL

- Developed and optimised **10+ frontend and backend features**, improving application performance and reducing UI latency by **25%**.
- Worked in Agile SDLC cycles including requirement analysis, sprint planning, testing, and deployment workflows.
- Implemented automation scripts, reducing manual effort by **30%** and improving overall system efficiency.
- Enhanced user interaction and UI responsiveness, improving usability and engagement by **20%**.
- Used Git and GitHub for version control, managing **50+ commits** and ensuring smooth collaboration in production environments.

Projects

Project Synapse – AI-Powered Last-Mile Delivery Platform [\[GitHub\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

React.js, Next.js, Tailwind CSS, REST APIs, SQLModel, Leaflet.js

- Built a full-stack delivery platform supporting **500+ simulated users** with real-time order tracking and role-based dashboards.
- Integrated REST APIs, map-based tracking, and an AI chatbot, reducing manual issue handling by **30%** and improving response efficiency.
- Implemented **JWT-based authentication** and role-based access control across customer, rider, and admin dashboards, ensuring secure and isolated user workflows.
- Designed reusable React components for scalability, reducing UI development time by **20%** and maintaining clean architecture.

Sahayak AI – Intelligent Assistance System [\[GitHub\]](#)

Dec 2024 – Jan 2025

Python, NLP, AI Models, REST APIs

- Developed an AI-powered assistant handling **200+ test queries** using NLP-based conversational workflows for intent detection.
- Validated backend API performance through structured testing, ensuring consistent sub-**500ms** response times and reliable data handling across **10+ endpoints**.
- Improved response accuracy by **30%** through structured intent detection and optimised interaction flow.
- Designed automated guidance logic, reducing user effort and interaction steps by **25%**.

MEDIBOT – AI-Enabled Teleconsultation System [\[GitHub\]](#)

Jul 2024 – Aug 2024

React.js, Next.js, Tailwind CSS, AI/NLP concepts, REST APIs

- Built a responsive teleconsultation platform supporting **100+ simulated users** for healthcare access.
- Implemented symptom-based workflows, reducing navigation time by **25%** and improving usability.
- Conducted cross-browser and cross-device testing across **5+ browsers**, ensuring consistent responsive design and zero layout breakages on mobile and desktop.
- Optimised UI performance and responsiveness, improving load time by **15%** across devices.

Technical Skills

Languages: Python, Java, JavaScript, HTML5, CSS3, TypeScript

Frameworks & Libraries: React.js, Next.js, Node.js, FastAPI, Express.js, TailwindCSS

Databases & Tools: PostgreSQL, MySQL, Git, GitHub

Gen AI: GenAI, LLM, NLP, LangChain

Cloud: AWS, Google Cloud, Cloud Computing

Achievements

- AWS Certified Cloud Practitioner [\[AWS\]](#) Jan 2026 – Jan 2029
- Oracle OCI Generative AI Professional [\[ORACLE\]](#) Nov 2025 – Nov 2028
- Introduction to Generative AI [\[IBM\]](#) Oct 2025 – Oct 2028
- Solutions Architecture Job Simulation [\[FORAGE\]](#) Dec 2025 – Dec 2028
- AI Fundamentals – ASCEND [\[Accenture\]](#) Sept 2025 – Sept 2028

Extracurricular

- Secured **Top 20 nationally** at GrabHack (Top 5%); participated in national-level hackathons including SIH, EY National Challenge, Amazon, Myntra, Adobe, and TVS, gaining hands-on experience in rapid prototyping and collaborative problem-solving under time constraints.
- **Vice President, Edu4U Club** – led and managed a team of **50+ members** at VIT Bhopal, organising large-scale academic and technical events, driving student engagement, and coordinating structured learning initiatives.
- Served as **Student Coordinator** for the TCS Campus Recruitment Process, coordinating between corporate representatives, placement authorities, and **200+ candidates**, ensuring smooth end-to-end execution of large-scale placement activities.
- Completed a **Generative AI Virtual Internship** (Google Cloud) with SmartBridge & SmartInternz (Nov 2025 – Jan 2026), gaining practical exposure to LLM concepts, prompt engineering, and cloud-based AI workflows.

Education

Vellore Institute of Technology

Sept 2022 – May 2026

B.Tech in Computer Science and Engineering (Educational Technology)

CGPA: 8.04
